HOW TO READ THIS REPORT

Revenue includes Paid orders only. Pending amount is not collected revenue. Refunded order value: $529.85. This is shown separately and is not subtracted from paid revenue.

Average paid order: $176.62. Amount = quantity x unit price. CSV prices are interpreted as USD; mixed currencies are not supported.

Every row passed validation. Duplicate IDs, missing values and invalid amounts reject the entire file; no rows are silently dropped.

Generated from the supplied CSV. This report does not verify source authenticity or constitute an accounting ledger. Portfolio sample data is fictional.
